“We rediscovered the technique of Tiffany. With this technique huge quantities of complex, large, colourful and richly detailed lamps can be produced in an economic way. Unfortunately Tiffany lamps have not evolved in shape or pattern over the last 100 years. With ‘Tiffany Flowers’ we have set a starting point to lend Tiffany a new fascination with the help of alternative joining techniques, new materials and a contemporary design. ‘Tiffany Flowers’ is made out of more than 500 laser cut acrylic glass pieces, which are simply joined by an environmental friendly PU-coating. The motive is inspired by an unknown internet-beauty called ‘Tiffany.’”

来自德国的设计事务所 ding3000 的作品 Tiffany Flower 作为“Hidden Heroes”展的参展作品，拥有常规的半球形吊灯外观、低调黑色表面，内里的装饰画造型大胆：一个几乎半裸的女人蜷缩在狭小的空间之内，灯罩表面的格纹也恰好被诠释成为女人裤子的装饰。

设计师坦诚灵感来自一个不相识的名叫“Tiffany”的网络美女，并非是大家熟知的首饰品牌。ding3000 显然对与创意同时产生的收获而兴奋：我们对 Tiffany 的制造技术有了新发现。现在技术复杂，体积庞大而且色彩繁多，细节要求严谨的灯具可以被大批量地、以更加经济方式生产的当下，Tiffany 却很遗憾地未能形成自己在图案和样式上的风格。希望“Tiffany Flower”能成为一个起点，让 Tiffany 在新材料和新设计灵感的运用中更具魅力。

这款灯由超过 500 块切割的玻璃亚克力材料组合而成，外涂层使用环保的 PU 涂料。 **IN-OUT**
